Art Unit: 1774

1. Claims 1, 4-9, 11-14, 17, 27-30, 32, 34 and 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Use of the phrase "an uppermost layer" is confusing. Because of the article "an" it is unclear if there is one or multiple layers that are considered uppermost by applicants. Changing "an" to "the" on line 3 of claim 1 would overcome this rejection.

2. It is noted that the certified translation of applicant's priority document has been received and has been given careful consideration. The document is considered to support the subject matter of claims 1-13, but does not support the broader independent claims 14 and 17. The priority document requires that there be a greater content by weight of inorganic pigment than of thermoplastic particles. This limitation is not present in claims 14 and 17. Consequently applicants will have the benefit of their priority date with respect to claim 1 and the elected claims dependent thereon.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 17 is rejected under 35 U.S.C. 102(e) as being anticipated by Ishida et al.

(US 2004/0081773) for reasons of record.

4. Claims 14 and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Sadasivan et al. (US 2003/0108690) for reasons of record .
5. Claims 14 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sadasivan et al. (US 2003/0108690) for reasons of record.
6. Applicant's arguments filed 4/25/06 have been fully considered but they are not persuasive for the reasons set forth above. In claims 4 and 13, it is suggested that "except for" be changed to "other than" in order to make the claim language clearer.
7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
